I was returning home from hunting in triangulation look-out area when I seen this object so I stopped and watched to see what it was. I could not remember anything like that in that area before and I have been hunting this area for 15 years, and then it moved north and then it shut and moved back south and disappear, reappear and hover. I was at 1100 feet on Anderson creek canyon and it was level with me it seemed. I could not see any wings or openings.
